Eh Vinnie/Vince/Jim!

You available for a communication sometime soon? I am puzzling over what to say about GHS's "experts," JECFA, ILSI et al.- pretty much the same folks flying under different banners, as it happens.

It turns out you were right about Linda Birnbaum. I will elaborate when we communicate.

Myra

Subject: MOA issues

Hey Vinnie! (or Vince, as your voicemail identifies you)-

I'd like to meet with you to discuss formulation of the cancer section of OSHA's new Globally Harmonized System (GHS) standard. Scientists prominent in development of the science policy include Drs. Klaunig, Capen, Sam Cohen, P. Fenner-Crisp, J. Seed, and D. Lai. I am preparing a paper for publication on the standard, and also doing a presentation at the APHA meetings next month, so I am hoping we can meet soon.

If you're done with the Prizzi DVD, I'd be happy to have it back.

You can reply to this e-address or call me at [Personal Phone / Ex. 6]

Thanks very much, and hope to speak with you soon.

Myra
